HOME ASSISTANCE Program for Homeowners and Tenants

- Lower your energy use
- Manage your energy costs
- Make your home more comfortable
- Get energy-efficient upgrades free of charge

What is the **saveONenergy** HOME ASSISTANCE program?

Centre Wellington Hydro Ltd., Lakefront Utilities Inc., Orangeville Hydro Limited, Parry Sound Power Corporation, Rideau St. Lawrence Distribution Inc., Wasaga Distribution Inc., Wellington North Power Inc. and the Ontario Power Authority have joined together under the **HOME ASSISTANCE** program to help Ontario homeowners and tenants make their homes more energy efficient.

The **HOME ASSISTANCE** program is the first of its kind in Ontario, and will be made available through participating electric utilities.

Why does it matter if my home is energy efficient?

An energy-efficient home is a more comfortable home – *plus* it will use less energy, making it easier for you to manage your energy costs.

Who is eligible for the HOME ASSISTANCE program?

You are eligible for the **HOME ASSISTANCE** program if you own or are a tenant in residential housing – such as a detached or semi-detached house, a townhouse, a mobile home or a unit in a duplex, triplex or other multi-residential building.

AND

Your annual household income (before-tax income of all household members, age 18 or older) is the same or less than the amounts shown:

Number of people living in the home	Before-tax annual household income†
1 person	\$29,931
2 persons	\$37,261
3 persons	\$45,810
4 persons	\$55,617
5 persons	\$63,081
6 persons	\$71,144
7 or more persons	\$79,209

OR

You have received one of the following for the past 12 months:

- National Child Benefit Supplement
- Allowance for the Survivor
- Guaranteed Income Supplement
- Allowance for Seniors
- Ontario Works
- Ontario Disability Support Program

OR

- You have received Utility Low Income Energy Assistance Program (LEAP) grant within the past 12 months.

Important note: If you live in social and/or assisted housing, please ask your housing provider to apply, and pick up the **HOME ASSISTANCE** brochure for social housing providers. If you live in a larger building, please visit saveonenergy.ca for the **RETROFIT PROGRAM** information.

AND

Your name appears on the electric utility bill (unless you live in social housing).

AND

If you are a tenant, you have the written consent of your building's owner or manager to join the program.

How does the HOME ASSISTANCE program work?

The **HOME ASSISTANCE** program includes:

1. A detailed in-home energy assessment

A **HOME ASSISTANCE** technician from GreenSaver will work with you to assess how energy efficient your home is now. The technician will look at all the factors that affect your energy use, including:

- what light bulbs you are using,
- how old your major appliances are, and
- whether drafts are coming in through your doors, windows, attic or basement.

2. Professional installation

Based on the results of your assessment, the **HOME ASSISTANCE** technician will install the energy-efficiency upgrades your home qualifies for. These upgrades may include:

- energy-saving light bulbs
- refrigerator
- a low-flow showerhead
- faucet aerators
- a programmable thermostat, and/or
- weatherstripping around your doors and windows.

The **HOME ASSISTANCE** technician will also be able to advise if your home is eligible for a new, energy-efficient refrigerator or other appliances, such as a room air conditioner, or additional insulation in your attic or basement.
